

## ***URSI Radio Science Letters***

The *URSI Radio Science Letters (RSL)* is an electronic journal owned and operated by the International Union of Radio Science (URSI). Its purpose is to rapidly publish original and previously unpublished scientific research work in all areas of radio science, in the form of short contributions that are rigorously reviewed. The journal is open access and is published only in electronic format, one volume per calendar year. Each reviewed and accepted letter is published as soon as full editing is completed. Each published contribution is identified by volume number, year of publication, and DOI.

Contributions to the *RSL* must be in the form of manuscripts in English, not exceeding four published pages in length. An additional page will be accepted at no charge if it contains only references. A template and instructions for prospective authors are provided on the journal's Web site. Initial submissions must be in PDF. Final submissions must also contain a source file, either *Word* or *LaTeX*. The PeerTrack manuscript management system of Allen Press is used to handle the submissions and the review and publishing process.

The *RSL* is intended to be a very rapid publication journal. The Editor-in-Chief (EiC) will promptly notify the corresponding author of the comments of the anonymous reviews, of the Associate Editor's comments, and of the consequent disposition of the manuscript. If minor revisions are required, a revised manuscript must be submitted within thirty days of the EiC's recommendation. Any delayed submission will be considered as a new submission. Only minor changes are acceptable. If major changes are required, the manuscript will be rejected with or without a suggestion to resubmit a revised version. Plagiarism, as well as duplicate submission and publication, will result in rejection of the submission.

Please send your manuscripts to:

<https://www.editorialmanager.com/RSL/>

Authors of accepted manuscripts are expected to sign the URSI Publication Agreement as a precondition to publication. A manuscript processing charge of 150 USD per published page or fraction thereof for URSI individual members (175 USD for URSI nonmembers) is to be paid prior to the posting of an accepted contribution.

Piergiorgio L. E. Uslenghi  
Editor-in-Chief
